Prevalon® XL/XXL Turn and Position System

Instructions for Placing Device with Patient in Bed:

1. Align upper edge of Mattress Cover with head of bed.
3. Secure Mattress Cover as outlined in step 2 under "Instructions for Use with Empty Bed." For instructions on repositioning patient, refer to step 12.

Instructions for Use with Empty Bed:

1. To Begin: Make sure bed brakes are locked, bed is flat (if patient condition allows) and at waist level. Make sure bed rails are in raised position. Place the two black elastic corner straps around underside of mattress at head of bed. Mattress cover remains in place for length of patient stay.

2. Secure Straps on Mattress Cover:
   - Attach all 4 black corner straps loosely first. Centering Patient on Bed:
   - As patient is positioned, fabric flap will fold back and be adhered to hook and loop fastener on outside of Wedge. Wedges at the sacrum.
   - Hand (~4 in./10 cm) between the positioned Body Wedge and patient’s head (~4 in./10 cm) between the positioned Body Wedge and patient’s head.
   - Remove Wedges and follow steps 8-11 on opposite side of patient. Refer to your facility’s protocol for frequency of repositioning.

3. Insert Body Wedges blue side up/grey side down between Mattress Cover and Glide Sheet by sliding over fabric flap on Mattress Cover. Fabric flap should be folded down over white hook and loop fastener when inserting Wedge.

5. To reposition patient, gently pull up on Body Pad. Position second Wedge under patient’s thigh and roll patient away from you onto his/her side. Refer to steps 5-11 under "After Patient is Transferred to Bed."

6. After Patient is Transferred to Bed:

7. Adjust head of bed to desired angle. Other Instructions:

a. Changing Body Pad:
   - Dispose of Body Pad when Soiled. Replace only with Prevalon® Microclimate Body Pad (Reorder XL # 7255 / XXL # 7260). Edge of Microclimate Body Pad must be aligned with edge of Glide Sheet.

b. Cleaning Instructions:
   - If Mattress Cover, Glide Sheet or Body Wedges become soiled, wipe with damp cloth to clean. Do not launder; laundering will compromise the function of this device.

- DO NOT use Prevalon® XL or XXL Turn and Position System to lift patients.
- Patient repositioning should always be performed following your facility’s safe patient handling policies and procedures.
- Periodically check product for signs of wear. Replace if product is damaged.
- For single patient use only.
- Weight capacity: XL < 800 lbs, < 362 kg, XXL < 800 lbs, < 362 kg.
